Threatened Famine in Natchezian Parish, La.

DETROIT, Sept. 6.—P. M.

The total failure of the corn and cotton crops in Natchezian Parish is exciting the serious apprehensions of our fellow-citizens there, and efficient measures are being adopted to avert the worst of all calamities, famine, and to relieve the wants of those who are most exposed upon the productions of the soil for the sustenance of life. In view of this distressing state of affairs, not only in N. La., in several other parishes of the State, a writer in the Natchezian Standard proposes petitioning Congress to appropriate the sum of \$1,000,000 for the purpose of appropriating funds to meet the exigencies of the case.

The people of this portion of the State are now in utmost need of help from some source, to prevent a famine and its consequent mortality.

Every day brings to our ears the distressing information of the blighting of the husbandman's hopes. Thousands of acres of grain have not yielded the seed planted. The forest crop of acorns and nuts are blighted and gone. The soil is dry, and there is no hope for grain or meat for the year's supply being raised by our farmers. The cotton crop is ruined except on the margin of the rivers and bayous, and the hand of All the upland farmers are gone, so the dependent farmer to afford means to purchase corn and meat, is left to hundreds.

In this alarming position I suggest that positions be addressed to the people to the Governor of the State, requesting him to convene the Legislature, and to appropriate the sum of \$1,000,000 to purchase grain and flour for the supply of the famishing people, under such regulations as their wisdom may decide on.

MURDER AND FATAL ACCIDENT.—As the democratic of Waco-Atwells, with their torches, was passing down South Clark st., about half past seven o'clock last evening, on their way to the Rock Island depot, to make a speech, they were stopped on the corner of Clark and Clark streets, where a boy named William Barnes was almost instantly killed, by falling from the second story of the Exchange Bank building to the sidewalk. He was in the employ of the Bank, and had just left, having been engaged in carrying out a sum of \$1,000,000, which he had just received, owing to the arrival of the mail.

He lived only a few moments after being taken up, and his heart was promptly cut out, but nothing could be done for his relief. His injuries were chiefly internal. He fell about eighteen feet, striking on the stone flagging. His age was about fifteen years. His parents reside on Quincy street.—Chicago Press &amp; Tribune.

SOUTH CAROLINA CAUCUS.—We have been informed by an extensive planter on the Edisto, that the rice crop of the present season will be the largest ever made for export. The planters have already commenced threshing, and consignments may be expected in this city about the 20th of September, which will be some days earlier than last year. The cotton is not looking as well as last year, but it is said to be in good condition, and that it will be harvested, owing to the fact that the market has been raised to \$1.00 per bushel.

THE BANCO UNION gives the following humorous analysis of the term "Squatter Sovereignty":

"Squatter" = "sovereign" ability. "Squatter Sovereignty" = the power of squatter. It also means a sovereign squating, as well as a squatter sovereign.

THERE is but one Douglas paper in Texas, the Victoria Advocate.
